

### REMARKS

The specification has been amended to insert a cross reference to the PCT application and the Japanese priority applications.

Some of the claims have been amended to delete all multiple dependencies in order to better conform with U.S. patent practices. As a result, claims 1-21 are pending. Claim 20 in the PCT application has been replaced with claim 20 (currently amended) and claim 21 in order to remove multiple dependency. The article --a-- has been inserted before "chlorella virus" in claims 7, 18 and 19 for editorial purpose and would not narrow the scope of the amended claim recitation.

The Office is hereby authorized to charge any fees that may be required related to the filing of this national stage application and Preliminary Amendment to the Kenyon & Kenyon Deposit Account No. 11-0600.

Respectfully submitted,

*King L. Wong (Reg. No. 37,500) for*
